

## Do I Qualify?

Children's Smile Center (CSC) will provide dental care to children and pregnant women who meet all three of these requirements:

**Medicaid:** Children's Smile Center (CSC) provides dental services to children and pregnant women who ONLY have Medicaid, which is also known as MOHealth Net Managed Care. To enroll in these programs, go to <https://mydss.mo.gov/healthcare>

**Residency:** Patients must live in Barry, Christian, Dade, Lawrence, Stone or Taney County to receive services.

**Patient Age:** Children's Smile Center is for children ages 1-19 and for pregnant women. As long as Medicaid is active, then CSC will be able to provide dental services most often provided in a general dental practice.
